

Advancing Veterinary Care

# EEG for the veterinary community

With Lifelines Trackit and  
the new Lifelines R40:

- Routine EEG
- Lab quality recording
- Video Option

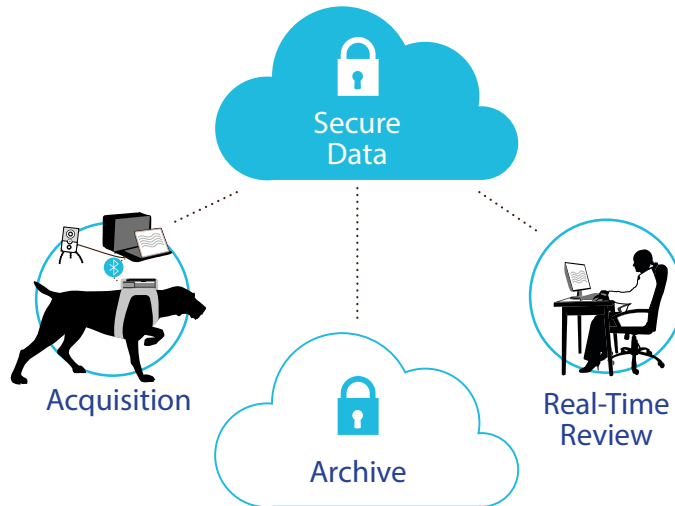

Now also with  
our breakthrough  
**Lifelines iEEG  
Cloud Services.**  
Putting EEG specialists  
within your reach whenever  
you need them.

*(See overleaf)*

## EEG meets dedicated Cloud Computing

Lifelines iEEG Cloud Services deliver game-changing solutions to veterinary practices for the management and workflow of EEG examinations and long term, secure storage.

### How it works

## The Lifelines iEEG ecosystem

Lifelines iEEG offers dedicated EEG solutions for Clinical EEG in the routine setting, in the ICU and NICU, for Veterinarians and of course, Research, as well.

With a combination of customized hardware and Lifelines iEEG's proven Cloud Services, we have built an EEG Ecosystem that you can deploy to monitor, record and review your patients' EEG, wherever and whenever you need it most.
